Rating Unit - Members

Rating Unit: Liberty Bankers Ins Group | **AMB #:** 070410

AMB # **Rating Unit Members**
060382 American Benefit Life Ins Co
006186 Capitol Life Insurance Company

AMB # **Rating Unit Members**
007011 Liberty Bankers Life Ins Co

Rating Rationale

Balance Sheet Strength: **Very Strong**

- The risk-adjusted capitalization of Liberty Bankers Insurance Group (Liberty Bankers) has now been assessed within the strongest category, as measured by Best's Capital Adequacy Ratio (BCAR).
- Moderately risky investment profile with a high allocation to NAIC Class 2 bonds and a significant portion of assets with real estate exposure. The real estate exposure risk is partially mitigated by the group's in-house expertise in this asset class. The group's exposure to Schedule BA assets has seen an overall reduction the last few years.
- Reserves are adequate to meet contractual obligations at all group levels, as per internal cash flow testing analysis.
- The group has increased its reinsurance usage in 2024, but it is still below peers and the industry average.

Operating Performance: **Adequate**

- Consistently favorable and stable operating income results partially hampered by reserve strain but with improved return metrics.
- Lower realized losses with increased claims activity and reduced annuity net premiums written in current year still impacted net income from increased competition across the industry.
- Favorable net investment income more than offsets the group's net underwriting loss.

Business Profile: **Neutral**

- Liberty Bankers continues to grow organically through the new lines of business, revamped product offerings, strategic acquisitions, and increased distribution.
- Diverse product offerings in life, health, and annuities that are of medium product risk.
- Products are primarily distributed through independent agents with a small number of captive agents. The group currently works with more than 15,000 independent agents.

Enterprise Risk Management: **Appropriate**

- The enterprise risk management (ERM) program has become more developed with formal policies, risk appetite statements, and transparency throughout the organization. Liberty Bankers incorporates the three lines of defense approach with the board maintaining oversight and input.
- Risk management procedures are in place to ensure business practices remain aligned with the long-term goals of the group.
- Qualitative and quantitative risks are identified and assessed at the corporate level, by line of business, and by third-party administrators (TPAs). Risks are assessed with a "heat map" approach, where they are scored for both likeliness and severity of impact.

Outlook

- The stable outlooks reflect the expectation that Liberty Bankers will maintain its overall balance sheet strength assessment, supported by risk-adjusted capitalization assessed at least at the very strong level, as measured by BCAR, and that ongoing strategic initiatives will maintain stable operating performance.

Rating Drivers

- The ratings could be negatively impacted by a deterioration in balance sheet metrics.
- The ratings could be negatively impacted by a deterioration in operating performance.
- While unlikely, the ratings could be positively impacted by an improvement in qualitative and quantitative balance sheet metrics.

Credit Analysis

Balance Sheet Strength

Liberty Bankers Insurance Group's risk-adjusted capital has been assessed within the strongest category as measured by Best's Capital Adequacy Ratio (BCAR) and is supportive of the group's very strong balance sheet strength assessment. The majority of the bond portfolio is investment grade however, the group does have a high allocation to NAIC 2 bonds and significant exposure to riskier assets including real estate and mortgage loans. The group's in-house expertise in real estate and mortgage loans partially mitigates the risks associated with this asset class.

Capitalization

Year-end 2024 capital & surplus increased to \$348M due to a large decrease in realized losses and a consistent net income, along with increasing net investment income, but partially offset by continued stockholder dividends. Liberty Bankers does have historical experience of growing capital and surplus over several years, with a 5 yr. compound annual growth rate trend of 9.2%.

Asset Liability Management - Investments

The growth of invested assets is reflective of the group's significant increase in annuity sales, stable net income, strategic acquisitions and partnerships. Investment grade fixed income securities remain the largest allocation of the investment portfolio followed by mortgage loans. Bonds are primarily comprised of investment grade public corporate bonds and taxable municipal securities. However, more than half of the bond portfolio is invested in NAIC 2 bonds and investments in Below Investment Grade increased to around 6.3% of invested assets at year-end 2024. Additionally, Liberty Bankers Group's internally originated mortgage loans - approximately 23% of total invested assets - remain slightly elevated in comparison with its peers.

AM Best notes Liberty Bankers' significant exposure to mortgage loan assets but acknowledges the group's consistency in sufficiently managing and diversifying this asset class. AM Best notes that Liberty Bankers Group utilizes certain resources and the expertise of its former parent company in managing real estate. Liberty Bankers has an established Loan Committee that is responsible for the review and approval of mortgages and other loans while also monitoring the group's holdings over time. The mortgage portfolio has historically had very good performance providing additional yield to the investment portfolio. The company has experienced very few loan foreclosures and was generally able to recover the principle, accrued interest and other expenses on previously foreclosed loans during the foreclosure process. AM Best will continue to monitor the company's ability to manage and stress test its mortgage loan portfolio.

The group's equity holdings primarily include investments in subsidiaries and the Federal Home Loan Bank with minimal unaffiliated equity exposure. The remainder of Liberty Bankers Group's invested assets are held in contract loans, cash & short-term investments, and Schedule BA assets.

Reserve Adequacy

The group's reserves are deemed adequate at all company levels as demonstrated by its annual internal Cash Flow Testing analysis.

Holding Company Assessment

In August of 2022, the company completed a \$100 million, five-year financing with a syndicate of banks. As of August 2025, the notes have amortized to \$90 million. Leverage metrics are currently at the upper end of AM Best's expectations.

Operating Performance

As of year-end 2024, earnings before interest and tax declined by around 31% to \$25.7M. The decrease in earnings before interest and tax were driven by an increase in claims experience especially Medicare Supplement, offset by some stronger net yield on bonds and cash equivalents. Earnings were dragged by an increase in reserves, commissions, and a slight increase in the average crediting rate offered on the group's annuity offerings. Net income was reported as \$16.3M which is slightly down from prior years. The slight decrease in net income year-over-year was mainly due to a small net realized loss of around \$1M.

Individual annuities continue to be the primary revenue source of the group. Net investment income continues to trend upwards. Invested assets have grown and portfolio yield have remained over 5%, as the group reached 5.4% on their net investment yield.

Liberty Bankers' corporate strategy is to control growth through annuity sales and the group has intentionally managed annuity premiums in order to strategically conserve capital. Overall 2024 annuity sales declined by approximately 15% from the prior year reflecting heightened interest rate competition across the industry. The year-end 2024 ROE was 5.1%, down from the prior year. Although still significant annuity sales in addition to moderate acquisition activity (including Pellerin Life and American Monumental Life) may lead to capital strain, overall net income has been positive to date.

Management has made a conscious effort to add growth of quality business, as the company has successfully entered into the supplement health business with premiums that have been increasing, while sales have not yet resulted in material profits.

Business Profile

Liberty Banker's is a niche player in the low to mid-market which is a hard market to penetrate. Although the spaces they operate in offer substantial competition, the group has shown an ability to grow organically, through new lines of business and through acquisitions. It offers products that are generally deemed medium risk and works with more than 15,000 independent agents.

Liberty Bankers Life has been the primary marketing arm for the group. However, Capitol Life Insurance Company, which was acquired in 2007, currently markets similar fixed annuity and life products, as well as fixed index annuities. Both companies have a national footprint. In addition, the company will continue to maintain its strategy of acquiring new blocks of business. The company currently issues fixed annuities, ordinary life products, home service life products, reinsurance, Medicare supplement and supplemental health. New initiatives include direct-to-consumer sales, association distribution and dental/vision/hearing plans. The group is fast to adopt industry trends and adapt to the changes in the economic environment. This maneuverability, coupled with some innovations, has contributed to the rapid growth over the past three years and has improved their agent and customer experience.

Enterprise Risk Management

Liberty Bankers Group has a formal enterprise risk management framework that is completed at the enterprise level. The group has a Chief Risk Officer that is fully devoted to the implementation and adherence of the ERM framework throughout the organization. As part of the group's risk management and controls, Liberty Bankers subscribes to a three-lines of defense approach with a well-established organizational structure that includes Internal Audit, Chief Risk Officer (CRO) and Enterprise Risk Management (ERM) committees, and business unit leaders. The ERM committee meets on a quarterly basis and presents risk tolerances to the board on an annual basis. The senior officers of the company are responsible for reviewing and reporting risk metrics and risk management activity. They are also charged with risk management in their day-to-day decision-making regarding operations of the company. The company has maintained elevated levels of real estate linked assets in its investment portfolio for many years that are well above industry averages. Overtime, its ERM program has gained greater attention within the group, as the CRO has implemented new risk controls across the group. Modeling, integration and stress testing has taken a stronger shape through formal policies and risk committee formation. The group maintains stress test modeling of multiple economic recession and interest rate scenarios. This analysis is closely connected with asset-liability matching studies which are performed quarterly. Risk appetite and tolerances have been quantified under various economic scenarios.

Reinsurance Summary

Ceded Business: In November 2012, Liberty Bankers Group entered into a reinsurance transaction with Athene. The transaction was a 100% coinsurance for a \$500 million block of fixed annuities. The benefits of the transaction are the elimination of reinvestment and disintermediation risk, substantial improvement in the risk based capital ratio, and improved asset/liability matching.

In 2021, Capital Life Insurance Company negotiated a Modco reinsurance agreement for bank channel sales with Aspidia Re. The Modco agreement was effective at the start of 2023. In 2023, this agreement was converted to a coinsurance with a funds withheld agreement.

Enterprise Risk Management (Continued...)

Assumed Business: Liberty Bankers Life entered into a reinsurance transaction with Landmark Life in 2015, to reinsure 35% of their life new business. The benefits of this transaction include top and bottom line growth in the life book of business. It also assumes a pre-need block, acquired in 2017.

The group, through its subsidiary, American Benefit Life, had reinsured pre-need life business from Texas Service Insurance Company from 2004 to 2023. American Benefit Life reinsures 50% of the business, which is all Texas business. This block comprises approximately 60% of the reserves of American Benefit Life.

In 2021, American Monumental assumed \$10 million in business from Pellerin Life, both subsidiaries of American Benefit Life, a subsidiary of Liberty Bankers.

Environmental, Social & Governance

AM Best considers Liberty Bankers' exposure to material environmental, social and corporate governance (ESG) risks to be low. However, as a life, health and annuity company, Liberty Bankers' business profile is exposed to changing demographics which can potentially impact mortality and morbidity assumptions.

BEST'S CREDIT REPORT

AMB #: 070410 - Liberty Bankers Insurance Group

A Best's Financial Strength Rating opinion addresses the relative ability of an insurer to meet its ongoing insurance obligations. The ratings are not assigned to specific insurance policies or contracts and do not address any other risk, including, but not limited to, an insurer's claims-payment policies or procedures; the ability of the insurer to dispute or deny claims payment on grounds of misrepresentation or fraud; or any specific liability contractually borne by the policy or contract holder. A Financial Strength Rating is not a recommendation to purchase, hold or terminate any insurance policy, contract or any other financial obligation issued by an insurer, nor does it address the suitability of any particular policy or contract for a specific purpose or purchaser.

A Best's Issue/Issuer Credit Rating is an opinion regarding the relative future credit risk of an entity, a credit commitment or a debt or debt-like security.

Credit risk is the risk that an entity may not meet its contractual, financial obligations as they come due. These credit ratings do not address any other risk, including but not limited to liquidity risk, market value risk or price volatility of rated securities. The rating is not a recommendation to buy, sell or hold any securities, insurance policies, contracts or any other financial obligations, nor does it address the suitability of any particular financial obligation for a specific purpose or purchaser.

In arriving at a rating decision, AM Best relies on third-party audited financial data and/or other information provided to it. While this information is believed to be reliable, AM Best does not independently verify the accuracy or reliability of the information. Any and all ratings, opinions and information contained herein are provided "as is," without any express or implied warranty.

You are solely responsible for seeking competent professional advice before making any investment, financial, tax or insurance decision. For additional details, refer to our *Terms of Use* available at the AM BEST website: <https://web.ambest.com/about/terms-of-use>. All information contained herein was obtained by AM BEST from sources believed by it to be accurate and reliable. Notwithstanding the foregoing, AM BEST does not make any representation or warranty, expressed or implied, as to the accuracy or completeness of the information contained herein, and all such information is provided on an "as is" and "as available" basis, without any warranties of any kind, either express or implied. Under no circumstances shall AM BEST have any liability to any person or entity for (a) any loss or damage of any kind, in whole or in part caused by, resulting from, or relating to, any error (negligent or otherwise) or other circumstance or contingency within or outside the control of AM BEST or any of its directors, officers, employees, or agents in connection with the procurement, collection, compilation, analysis, interpretation, communication, publication or delivery of any such information, or (b) any direct, indirect, special, consequential, compensatory, punitive or incidental damages whatsoever (including without limitation, personal injury, pain and suffering, emotional distress, loss of revenue, loss of present or prospective profits, loss of business or anticipated savings, or loss of goodwill) resulting from the use of, or inability to use, any such information, in each case, regardless of (i) whether AM BEST was advised in advance of the possibility of such damages, (ii) whether such damages were foreseeable, and (iii) the legal or equitable theory (contract, tort or otherwise) upon which the claim is based. The credit ratings, performance assessments, financial reporting analysis, projections, and any other observation, position or conclusion constituting part of the information contained herein are, and shall be construed solely as, statements of opinion and not statements of fact or recommendations to purchase, sell or hold any securities, insurance policies, contracts or any other financial obligations, nor do they individually or collectively address the suitability of any particular financial obligation for a specific purpose or purchaser. Credit risk is the risk that an entity may not meet its contractual, financial obligations as they come due. Service performance risk is the risk that an entity may not meet its contractual service performance obligations on behalf of its insurance partners. Consequently, neither credit ratings nor performance assessments address any other risk, including but not limited to, liquidity risk, market value risk or price volatility of rated securities. NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY SUCH RATING OR ASSESSMENT OR OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY AM BEST IN ANY FORM OR MANNER WHATSOEVER. Each credit rating, performance assessment or other opinion must be weighed solely as one factor in any investment or purchasing decision made by or on behalf of any user of the information contained herein. Each such user will, with due care, make its own study and evaluation of each security or other financial obligation, and of each issuer and guarantor of, and each provider of credit support, and an independent view of service provider performance for, each security or other financial obligation that it may consider purchasing, holding, or selling or for each service contract that it may consider entering into. For additional detail on credit ratings or performance assessments, and their respective scales, usage, and limitations, refer to the Guide to Best's Credit Ratings (<https://www.ambest.com/ratings/index.html>) or the Guide to Best's Performance Assessments (<https://www.ambest.com/ratings/assessmentMethodology.html>).
