Rating Rationale

Balance Sheet Strength: **Adequate**

- Manhattan Insurance Group has shown a trend of improving risk-adjusted capitalization over the previous several years with results, as measured by Best's Capital Adequacy Ratio (BCAR), indicating a continued very strong assessment for year-end 2024.
- The group has historically managed its capital well while acquiring blocks of business. However, the group has pivoted to more organic growth with the sale of its two charters, which helps elevate its overall capital.
- The group has started to allocate more to NAIC-1 bonds and mortgage loans the past two years and has maintained liquidity ratios with increased holdings in cash and short-term investments.
- The group has continued to focus on reducing its level of financial leverage, but it still maintains accumulated goodwill from acquisition activity and surplus notes.

Operating Performance: **Adequate**

- Manhattan Insurance Group has seen an increase in statutory net income in 2024 and into 2025 primarily due to realized gains from the sale of its charters and continued operating gains supported by its net investment income.
- As of the second quarter of 2025, all major lines of business are profitable pre-tax, and the group has seen continued growth in overall premiums, which has included record-breaking sales years of its multi-year guaranteed annuity (MYGA) products. It does expect the MYGA market to cool as sales are expected to slow down.
- The group's strategy for growth has historically favored acquisitions leading to fluctuating premiums and operating results over the past five years by business line; however, it has recently sold two of its charters and focused on its operational capabilities to scale efficiently.

Business Profile: **Neutral**

- Manhattan Insurance Group as a whole is well diversified from both a product and geographic perspective being licensed in all 50 states along with expansion overseas and offering a wide range of products including various annuities, accident and health coverage, and ordinary life insurance.
- The group sold two of its charters during 2024. The two charters were Family Life Insurance Company (Family Life) and ManhattanLife of America Insurance Company (ManhattanLife of America). The group realized a gain on both sales in 2024 and 2025. The existing business in Family Life and ManhattanLife of America was reinsured to Western United Life Insurance Company (Western United Life).
- The group is competent at acquiring and profitably managing challenging blocks of health and life business with over 20 years of favorable results. In 2025, it expanded into utilizing its group voluntary benefits operational capabilities to support employee groups looking to utilize captives, as the fronting carrier with administrative control and partial risk participation.

Enterprise Risk Management: **Appropriate**

- Formalization of the ERM framework remains a continuous process with each entity in the group maintaining a written board-approved risk appetite statement that describes that specific entity's appetite by risk category including compliance, strategic, credit, financial, operational, reputation, liquidity, market, pricing/underwriting, and reserving.
- Despite Manhattan Insurance Group's acquisition strategy with regard to growth adding another layer of complexity to the overall ERM framework, the group has been successful in the rigorous vetting of companies and blocks of business to ensure no anti-selection or issues arise when integrating.
- Cash flow testing is completed for all books in each company and presented to the various boards of the operating companies; stress testing in different interest rate scenarios is being conducted, but it is still an evolving area of the overall framework. In 2024, Western United Life Insurance Company coinsured 100% of the business from Family Life as of October 2024 and was included in its analysis.

Outlook

- The stable outlooks reflect Manhattan Insurance Group's continued improved risk-adjusted capitalization while maintaining adequate operating performance. The expectation is for balance sheet metrics to remain stable or slightly improve as the group continues to execute its strategy.

Rating Drivers

- A positive rating action could occur if there is a consistent trend of improvement in balance sheet strength metrics.
- A negative rating action could result from a deteriorating trend in operating performance.
- A negative rating action could result from deterioration in overall balance sheet strength metrics including risk-adjusted capitalization.

A Best's Financial Strength Rating opinion addresses the relative ability of an insurer to meet its ongoing insurance obligations. The ratings are not assigned to specific insurance policies or contracts and do not address any other risk, including, but not limited to, an insurer's claims-payment policies or procedures; the ability of the insurer to dispute or deny claims payment on grounds of misrepresentation or fraud; or any specific liability contractually borne by the policy or contract holder. A Financial Strength Rating is not a recommendation to purchase, hold or terminate any insurance policy, contract or any other financial obligation issued by an insurer, nor does it address the suitability of any particular policy or contract for a specific purpose or purchaser.

A Best's Issue/Issuer Credit Rating is an opinion regarding the relative future credit risk of an entity, a credit commitment or a debt or debt-like security.

Credit risk is the risk that an entity may not meet its contractual, financial obligations as they come due. These credit ratings do not address any other risk, including but not limited to liquidity risk, market value risk or price volatility of rated securities. The rating is not a recommendation to buy, sell or hold any securities, insurance policies, contracts or any other financial obligations, nor does it address the suitability of any particular financial obligation for a specific purpose or purchaser.

The credit ratings, performance assessments, financial reporting analysis, projections, and any other observation, position or conclusion constituting part of the information contained herein are, and shall be construed solely as, statements of opinion and not statements of fact or recommendations to purchase, sell or hold any securities, insurance policies, contracts or any other financial obligations, nor do they individually or collectively address the suitability of any particular financial obligation for a specific purpose or purchaser. Credit risk is the risk that an entity may not meet its contractual, financial obligations as they come due. Service performance risk is the risk that an entity may not meet its contractual service performance obligations on behalf of its insurance partners. Consequently, neither credit ratings nor performance assessments address any other risk, including but not limited to, liquidity risk, market value risk or price volatility of rated securities. NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY SUCH RATING OR ASSESSMENT OR OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY AM BEST IN ANY FORM OR MANNER WHATSOEVER. Each credit rating, performance assessment or other opinion must be weighed solely as one factor in any investment or purchasing decision made by or on behalf of any user of the information contained herein. Each such user will, with due care, make its own study and evaluation of each security or other financial obligation, and of each issuer and guarantor of, and each provider of credit support, and an independent view of service provider performance for, each security or other financial obligation that it may consider purchasing, holding, or selling or for each service contract that it may consider entering into.
