Business Profile	Favorable
Enterprise Risk Management	Appropriate

Rating Unit - Members

Rating Unit: American National Group | **AMB #:** 070166

AMB # **Rating Unit Members**
006365 Amer Natl Life Ins Co of NY
007417 Amer Natl Life Ins Co of Texas

AMB # **Rating Unit Members**
006087 American National Insurance Co

Rating Rationale

Balance Sheet Strength: **Very Strong**

- Very strong level of risk-adjusted capitalization as measured by Best's Capital Adequacy Ratio (BCAR). Overall capital levels remain favorable.
- Invested assets are well managed and good credit quality. The portfolio does have some exposure to higher-risk assets.
- Favorable quality of surplus, supported by earnings growth; growing use of reinsurance and no financial leverage.

Operating Performance: **Adequate**

- Investment income remains strong but was not sufficient to offset underwriting losses in 2023 and 2024.
- Statutory return ratios have been below life industry averages in recent years.
- Annuity sales also remain elevated, with a significant portion of sales from fixed deferred and indexed annuity products. The group has pivoted its focus away from life insurance products.

Business Profile: **Favorable**

- American National Group has annuity products offered through multiple distribution and marketing channels. These products are offered in multiple geographic areas.
- Exiting the accident & health (A&H) business and reinsurance of life risk has caused the group to become more concentrated in annuity products. Most general account reserves are interest sensitive.
- Group annuity products through pension risk transfer provide an opportunity for additional growth.

Enterprise Risk Management: **Appropriate**

- Risk identification and monitoring are embedded throughout the organization. The group has a developed structure and works to educate employees and allocate resources to improve the infrastructure.
- Risks are viewed and evaluated based on the overall financial impact to the group. A range of available capital is determined to ensure that normal operations are not impacted by severe events.
- Asset/liability management, conservative reserving, and liquidity maintenance are all major areas of focus within the life group's ERM program.
- Most life insurance risk has been ceded out of the group. Product risk management is heavily focused on annuities.

Outlook

- The stable outlooks represent the expectation that the group will maintain its very strong balance sheet strength assessment. This is supported by the level of its overall capitalization and adequate operating performance.

Rating Drivers

- Negative rating action may occur if there is a continued reduction in overall balance sheet strength.
- Negative rating action could occur if there is significant and sustained deterioration in underwriting results and overall profitability.
- Positive rating action could occur if there is a material and sustained appreciation in overall balance sheet strength.

Credit Analysis

Balance Sheet Strength

Capitalization

The Group's risk-adjusted capitalization as defined by the Best Capital Adequacy Ratio is assessed as 'Strongest' and supports the group's insurance and business risks. Surplus decreased by \$100 million in 2024 mainly as the result of capital reallocation within the Brookfield Wealth Solutions organization. Quality of capital is good with overall good credit quality of invested assets, growing use of reinsurance and organic earnings growth. The Group also has the ability to move capital about the enterprise and allocate capital to those business segments where it can be most efficiently used. The Group has shown that it has strong financial flexibility and AM Best

Balance Sheet Strength (Continued...)

anticipates additional capital flexibility through its ownership by Brookfield Wealth Solutions Ltd. The company has additional liquidity through its membership in the FHLB.

Asset Liability Management - Investments

The Group's cash and invested assets on a statutory basis of \$27.0 billion at year-end 2024 has increased since the prior year-end. Invested assets have primarily been managed by Brookfield Asset Management and will benefit going forward as a result of its Investment Management Agreement with Brookfield Asset Management. The asset base has increased in recent years primarily due to new sales, also supported by investment income.

As of the most recent year-end statements, life group statutory invested assets were comprised of bonds (50.6%); mortgages (20.8%); Sch BA (12.3%); cash & short-term (10.5%); stock(2.9%); other invested assets (1.1%); contract loans (1.0%) and real estate holdings (0.9%). Allocations to affiliated investments and private placements have steadily increased in recent years. Below investment-grade bonds comprise about 14% of the bond portfolio.

Allocations to mortgages represent around 213% of capital and surplus at year-end 2024. Given the recent challenging environment during the pandemic AM Best is closely monitoring delinquency and foreclosure activity, but it has not been significant to date. Nearly a third of the mortgages originated from the West-Southwest region, with good diversification in the remaining regions. Also, about a third of the mortgages are held in the office property type, but there is also good diversification among the remaining property types.

Reserve Adequacy

At year-end 2024, 85% of reserves are annuity liabilities. About half of individual annuities have crediting rates over 3%. AM Best notes that The Group's reserves are considered adequate per their reserving methodology and cash flow testing.

Operating Performance

2024 results included underwriting challenges and investment income. Underwriting losses were up to \$1.46 billion, which is aligned with the prior year. Net investment income reached a five year high of \$1.45 billion in 2024. Income taxes drove a net operating loss of \$188.2 million, however the group produced \$675.7 million in net income from 2020-2024. Prior to having negative net premium in 2024, the group reported a 7.5% CAGR on NPW from 2019-2023. Despite robust direct premium growth in the period, reinsurance ceded premiums increased greatly in 2022, 2023 and 2024. Ceded premiums for each year were \$1.357 billion, \$3.519 billion, \$11.248 billion respectively.

2024 annuity sales were \$7.3bn. Across the overall ANGI operations, they had 86% of their sales in FDA, 9% in FIA, 4% in SPIA and 1% in VA products. They are targeting a greater emphasis on indexed annuities in 2025. Overall annuity sales also included \$1.9 billion in group annuities sales through Pension Risk Transfer (PRT). As of 4/30/25, 2025 YTD PRT sales were \$400 million. Although this is down from the volume in 2024, PRT activity tends to pick up during the later parts of the year, indicating that additional deals will come.

Business Profile

The American National Group (the Group) was acquired by Brookfield Reinsurance, Ltd. (BNRE; now known as Brookfield Wealth Solutions Ltd or BWS) in May of 2022 for a total of \$5.1 billion. This has created a domestic insurance presence for BWS, which is an important part of its overall strategy. Under its new ownership structure, the American National Group will continue to operate as it has historically, with its headquarters remaining in Texas and under the oversight of its current management team. The Group is made up of several companies that offer a diverse product portfolio of life, annuity, accident & health, and pension risk transfer products. The companies that comprise The Group are: American National Insurance Company (ANICO), American National Life Insurance Company of Texas (ANTEX), Garden State Life Insurance Company (GSLIC), and American National Life Insurance Company of New York (ANICONY).

ANICO currently offers a variety of individual and group annuity products. They previously offered a broad line of insurance coverage, including individual life, health, disability, and annuities. They also offered group life, health, annuities and credit insurance. Products are marketed through a diverse network of distribution systems, which includes home office, multi-line, group brokerage, credit, and independent third-party marketing organizations.

ANTEX has no significant amount of business remaining after the RGA reinsurance transaction in 2024 and is in run-off mode.

GSLIC's life premium consists of renewal business only, and currently has insignificant amount business remaining after the RGA reinsurance transaction in 2024.

ANICONY markets annuity products to rural and suburban upper-middle income clients, predominantly in New York.

The group also entered the pension risk transfer (PRT) space in 2023. They were a top 15 writer of the business in their first year and rose to top 10 for the first nine months of 2024. They are looking to grow this business, as well as annuity business, in order to leverage their asset management strength.

Distribution is comprised of the following groups: Independent Marketing Group (IMG), Career Sales & Service Division (CSSD), and Multiple Line Agencies.

Independent Marketing Group - The Independent Marketing division sells life insurance, annuities, and pensions, targeting the middle income and affluent marketplace. Distribution is through financial institutions, large marketing organizations, employee benefit firms,

Business Profile (Continued...)

broker-dealers, and independent brokerage agencies. IMG also markets to individuals who prefer purchasing life insurance directly from an insurance company, through outbound call centers.

Career Sales & Service Division - CSSD markets life insurance, annuities, and supplemental health insurance to the lower and middle-income marketplaces. Distribution is through employee agents.

Multiple Line Agencies- Markets life insurance, annuities, pension plans, and property/casualty products, and is exceptionally strong in agribusiness. Primary markets are individuals, families, farmers, ranchers, and small business owners, and distribution is mainly through dedicated agents.

The group has ceased writing life insurance products and has reinsured much of its remaining life insurance risk. It will focus heavily on annuities. The growth in concentration in annuities is deemed to have an unfavorable impact on overall product risk.

Enterprise Risk Management

The ERM program for American National Group is appropriate for the scale, nature, and complexity of risks taken by the organization. The ERM policy addresses the roles and responsibilities of the Board, the Enterprise Risk Management Committee, officers, and subsidiary boards relative to risk management. AM Best anticipates that under its new Parent, BWS, the company will maintain its current level of risk management capabilities while benefiting from additional capital flexibility and enhanced investment management expertise.

The organization views risk in terms of the financial impact on capital, which is stratified in various levels of capital they wish to maintain to continue normal operations following a series of severe events. American National has strong risk identification and reporting capabilities and has developed its ERM program, which works to improve its infrastructure and educate workers.

The Asset/Liability committee meets monthly to review and discuss cash and liquidity needs and takes measures to ensure consolidated liquidity ratios are above prescribed thresholds.

Enterprise Risk Management (Continued...)

Also, the group continually monitors developments and coordinates efforts with industry groups to drive informed decisions and actions.

Reinsurance Summary

American National used reinsurance to cede life insurance risks over a \$5 million retention limit. MGU business relies heavily on reinsurance. Generally 90% of the risks are ceded. For reserving, prudent estimate assumptions are developed based on multi-year experience studies with assumptions reviewed annually. There is also stress testing, cash flow testing and historical adequacy studies performed. The group has previously reinsured 80% of its IUL mortality with Swiss Re and RGA. As of July 2024, American National Group began ceding a portion of its life insurance risk to RGA. It will have a significant capital impact. They're still in the life insurance business and write new life policies. Over \$3 billion of statutory reserves have been ceded, with \$2 billion of reserves remaining. They will continue to service the policies. The transaction reduces mortality exposure in both term and permanent life policies. What they have left is largely whole life. The group has discontinued writing life insurance products as of mid-2025.

Environmental, Social & Governance

AM Best considers company's exposure to material environmental, social, and corporate governance (ESG) risks to be low. The company operates in an environment where its underwriting activities have low or no exposure to climate risk, and its profile on underwriting and investment are not exposed to so-called toxic assets and industries. The company operates in line with market peers, and at present ESG factors are unlikely to impact the credit quality of the company over the short-term. There are no regulatory requirements relating to ESG, although the company regularly monitors developments to ensure its practices are compliant.

A Best's Financial Strength Rating opinion addresses the relative ability of an insurer to meet its ongoing insurance obligations. The ratings are not assigned to specific insurance policies or contracts and do not address any other risk, including, but not limited to, an insurer's claims-payment policies or procedures; the ability of the insurer to dispute or deny claims payment on grounds of misrepresentation or fraud; or any specific liability contractually borne by the policy or contract holder. A Financial Strength Rating is not a recommendation to purchase, hold or terminate any insurance policy, contract or any other financial obligation issued by an insurer, nor does it address the suitability of any particular policy or contract for a specific purpose or purchaser.

A Best's Issue/Issuer Credit Rating is an opinion regarding the relative future credit risk of an entity, a credit commitment or a debt or debt-like security.

Credit risk is the risk that an entity may not meet its contractual, financial obligations as they come due. These credit ratings do not address any other risk, including but not limited to liquidity risk, market value risk or price volatility of rated securities. The rating is not a recommendation to buy, sell or hold any securities, insurance policies, contracts or any other financial obligations, nor does it address the suitability of any particular financial obligation for a specific purpose or purchaser.

In arriving at a rating decision, AM Best relies on third-party audited financial data and/or other information provided to it. For additional details, refer to our *Terms of Use* available at the AM BEST website: <https://web.ambest.com/about/terms-of-use>. All information contained herein was obtained by AM BEST from sources believed by it to be accurate and reliable. Notwithstanding the foregoing, AM BEST does not make any representation or warranty, expressed or implied, as to the accuracy or completeness of the information contained herein, and all such information is provided on an "as is" and "as available" basis, without any warranties of any kind, either express or implied. Under no circumstances shall AM BEST have any liability to any person or entity for (a) any loss or damage of any kind, in whole or in part caused by, resulting from, or relating to, any error (negligent or otherwise) or other circumstance or contingency within or outside the control of AM BEST or any of its directors, officers, employees, or agents in connection with the procurement, collection, compilation, analysis, interpretation, communication, publication or delivery of any such information, or (b) any direct, indirect, special, consequential, compensatory, punitive or incidental damages whatsoever (including without limitation, personal injury, pain and suffering, emotional distress, loss of revenue, loss of present or prospective profits, loss of business or anticipated savings, or loss of goodwill) resulting from the use of, or inability to use, any such information, in each case, regardless of (i) whether AM BEST was advised in advance of the possibility of such damages, (ii) whether such damages were foreseeable, and (iii) the legal or equitable theory (contract, tort or otherwise) upon which the claim is based. The credit ratings, performance assessments, financial reporting analysis, projections, and any other observation, position or conclusion constituting part of the information contained herein are, and shall be construed solely as, statements of opinion and not statements of fact or recommendations to purchase, sell or hold any securities, insurance policies, contracts or any other financial obligations, nor do they individually or collectively address the suitability of any particular financial obligation for a specific purpose or purchaser. Credit risk is the risk that an entity may not meet its contractual, financial obligations as they come due. Service performance risk is the risk that an entity may not meet its contractual service performance obligations on behalf of its insurance partners. Consequently, neither credit ratings nor performance assessments address any other risk, including but not limited to, liquidity risk, market value risk or price volatility of rated securities. NO WARRANTY, EXPRESS OR IMPLIED, AS TO THE ACCURACY, TIMELINESS, COMPLETENESS, MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE OF ANY SUCH RATING OR ASSESSMENT OR OTHER OPINION OR INFORMATION IS GIVEN OR MADE BY AM BEST IN ANY FORM OR MANNER WHATSOEVER. Each credit rating, performance assessment or other opinion must be weighed solely as one factor in any investment or purchasing decision made by or on behalf of any user of the information contained herein. Each such user will, with due care, make its own study and evaluation of each security or other financial obligation, and of each issuer and guarantor of, and each provider of credit support, and an independent view of service provider performance for, each security or other financial obligation that it may consider purchasing, holding, or selling or for each service contract that it may consider entering into. For additional detail on credit ratings or performance assessments, and their respective scales, usage, and limitations, refer to the Guide to Best's Credit Ratings (<https://www.ambest.com/ratings/index.html>) or the Guide to Best's Performance Assessments (<https://www.ambest.com/ratings/assessmentMethodology.html>).
